

CHAPTER – 6

COMMUNITY FACILITIES

A study of Physical and Social infrastructure in Hampi Local Planning Area reveal the level of social, Cultural and economic values of the Community. The Infra-structural facilities in the Heritage Area are generally satisfactory but some of the facilities in some villages especially in Hampi village are not satisfactory. The details of various facilities available in the Planning Area are explained.

1. EDUCATIONAL FACILITIES:

The study of educational facilities reveals that the entire local planning area has only 12 government **primary schools** located in 9 villages. Though the villages like Bukkasagar with 3912, Nagenahalli 3989 population as per 2001 census do not have even basic primary school. The details of availability of educational facilities in the Local Planning Area is given below and the facilities required by 2011 and 2021 is also given below. There are no private schools. There are 11 government **higher primary schools** and private school in Local Planning Area. As regards to the **high schools**, there are two government and two private high schools in the Planning Area. The villages that are enjoying the high school facility are Malapanagudi (old and new) Bukkasagar, and Anegundi.

Kamalapur town is enjoying 2 primary and higher primary schools and 2 high schools and a University. The students of Kamalapur town mainly depend on Hospet for their higher and technical education.

2. HEALTH FACILITIES:

The existing Health facilities in the entire Local Planning Area are very poor. None of the 27 villages enjoy community health center, **primary health center** and primary health unit except in **Anegundi** one primary health center is functioning. **Kamalapur** being a town doesn't have even basic health services. Though Hospet and Gangavathi urban areas are very near to most of the villages needs to have basic health facilities. But in some villages like Bukkasagar, Nagenahalli, Venktapur, Anegundi, Sanapura, Chikkarampur, Anjanhalli and Hanumanhalli private doctors/clinics are functioning. (for details please refer table.)

3. UTILITIES AND OTHER SERVICES:

The study of utilities and services in the Local Planning Area reveals that the water supply is comparatively better and public health facilities like community latrines etc. are also under use. But most of these services related to public health (community latrines etc.) are not sufficient and needs to be improved. The other facilities available in important settlements of the Local Planning Area are:

1. Drainage facility not available in the village
2. Electricity facility is available in the village
3. Post and telegraph facility is available in Kamalapur Hampi & Malapanagudi villages.
4. Police station is available only Hampi and Anegundi
5. Filling station is available only Kamalapur
6. Fair price shops are available in Hampi, Aengundi, Malapanagudi, Bukkasagar, Kaddirampur, Nagenhalli, Venktapur, Sanapur, Hanamanahalli, and Basavandurga
7. Library facility is in Hampi, Bukkasagar and Anegundi villages

4. PROJECTIONS:

Hampi Local Planning Area has nearly 60,000 people as per 2001 census and is expected to have 90,000 people by the end of 2021. A comprehensive analysis of available infra-structural facilities in all important settlements has revealed that certain services needs to be added by the end of 2021. Some basic infra-structural facilities required to meet the **future population requirements** have been projected based on the ‘**functional standards**’ or threshold population and the details of such required services are given below:
